

BSCC Terminology 2002

A consensus forum for cervical cytology

To be preceded by an interactive bulletin board to gather your views on terminology, smear reporting and management through a dedicated website

Date: 18th & 19th March 2002

Venue: Manchester International Convention Centre (GMex)

Host: Dr. Mina Desai and Dr. Wendy Yates

Scientific Programme Co-ordinator: Dr. Lesley Turnbull

Web Co-ordinator: Dr. Ranji Persad

Lecturers/Moderators to include: Dr. Linda Caughley, Dr. Amanda Herbert, Mrs. Eileen Hewer, Dr. Ray Lonsdale, Dr. Euphemia McGoogan, Dr. John Smith, Dr. Peter Smith, Dr. Lesley Turnbull, Dr. Chris Waddell

Conference Aims:

- Clearer results for women
- Concordance with other terminologies
- Consistency with new scientific developments and technologies

Topics Covered:

1. Principles of terminology and correlation with other systems.
2. Review of smear nomenclature and recommendations for patient management
 - Assessment of adequacy
 - The negative smear including interpretation of endometrial cells, infections, IUCD changes etc.
 - Squamous dyskaryosis and koilocytosis
 - Glandular dyskaryosis
 - Non koilocytic borderline nuclear changes
3. Application and reporting of ancillary tests
4. Configuration of the report format and its contents
5. Impact and potential application of liquid based cytology

Who Should Attend:

The conference will be of major interest to Pathologists, Biomedical Scientists, Cytoscreeners, Colposcopists, Gynaecologists, General Practitioners, Practice Nurses, Consultants in Public Health Medicine and Quality Assurance Directors.
