

**British Association  
for Cytopathology**

**Spring Tutorial  
23 March 2012**

**HENRIETTE RAPHAEL CENTRE, GUY'S HOSPITAL, LONDON**

The Spring Tutorials are BAC-k!

The scientific content of this tutorial will be of interest to consultants, trainees and biomedical scientists either already practising or developing an interest in exfoliative cytology (serous effusions, urine cytology and QA in immunocytochemistry) as well as thyroid FNA reporting, including onsite assessment.

The presenters and tutors are leading national and international experts in their respective areas and the presentations are accompanied by slide workshops and the opportunity for 1-2-1 discussion.

The workshops are at no extra charge and with up to 20 places in each workshop, this is an unmissable educational feast.

**Lectures:**

**Thyroid FNA: Onsite assessment and variation in reporting profiles**

*Dr Thomas Giles, Royal Liverpool University Hospital, Liverpool, UK*

**Thyroid cytopathology: Coming to terms with terminology**

*Prof Syed Z Ali, The Johns Hopkins Hospital, Baltimore, Maryland, USA*

**Immunochemistry on cytology specimens: special precautions**

*Ms Irena Srebotnik-Kirbis, Institute of Pathology, Ljubljana, Slovenia*

**Workshops:**

Thyroid cytology workshop

Serous effusion cytology workshop

Urine cytology workshop

Presentations by sponsors

Book early to ensure a place on two workshops of your choice. Alternatively, there will be a parallel session of presentations by the sponsors on recent developments relevant to cytopathology and a video-microscopy tutorial to complement the lecture on immunocytochemistry.
